

THE ALL NEW POWERFUL SOLUTION FOR SUMMER TRUCKING

EBERSPÄCHER COOLTRONIC PARKING COOLER 2000 PLUS HATCH

Only a well-rested truck driver is a safe truck driver.

This goes in all seasons, and now there is a brand-new powerful solution to keep cool during breaks and overnight rest.

As a top-tier product, the new Cooltronic 2000 Plus Hatch combines exceptionally **high cooling power** with optimal **energy efficiency**, **very low noise** emissions and **lightweight** mass. Cooltronic is available in the hatch version for installation in the vehicle's roof hatch.

All models are optimized for easy installation. The Hatch models, in particular, are easy to install in the existing hatch. The three-step installation process is so simple that experienced workshop technicians can complete it in just a few hours.

The units come with pre-installed vents and pre-filled closed systems. Compared with air conditioning systems that need the engine running, the electrically powered Cooltronic parking cooler offers significant savings on diesel consumption and lowers your CO₂ emissions.

PRODUCT BENEFITS

- High output up to 2000W of cooling capacity (ISO5151)
- Lightweight robust construction (28 Kg)
- Low operational noise (55 Db)
- Air swing louver, automatically adjustable by remote control
- Three operational modes available: Economy | High | Auto

OTHER FEATURES

- Standard installation kit for universal fitment
- User-friendly remote control included
- Stepless variable drive DC compressor - low vibration
- 15-amp power draw in eco mode
- Control range 18-30 deg c
- Operating ambient temperature 5-52 deg c

CLIMATE CONTROL WITH THE ENGINE SWITCHED OFF

TECHNICAL DATA:

COOLTRONIC

COOLTRONIC 2000 PLUS HATCH

Part number		81 0000 17 0000
Cooling performance	W	1,984 (ISO 5151/Europe) 2,020 (GBT37123 2018/China)
Refrigerant		R 134a pre-filled / 330g
Voltage	DC V	24
Fan settings		3
Electrical consumption	A/h	Min. 14.6 / Max. 35.8
Air output	m ³ /h	300
Battery protection		Standard protection, cutout @ 22.8 V
Weight (system)	kg	28
Main dimensions L x W x H	mm	786 x 986 x 175

18 MONTH WARRANTY
